For Immediate Release:

**CITY OF CORTLAND ANNOUNCES LOW FIXED RATE
FOR NATURAL GAS ENDORSEMENT PROGRAM**

Cortland, Ohio, August 25, 2015 – Cortland City officials would like to announce they have chosen Constellation Energy Services, Inc. (“Constellation”) to provide residents and small businesses with low-cost natural gas supply following a competitive bidding process under the state’s natural gas choice, governmental aggregation program. A \$3.67 per Mcf rate has been set for gas consumed for the November 2015 through October 2017 bill cycles.

Mayor Curt Moll said, “We are delighted to secure such a low rate for our residents and small businesses. Constellation’s fixed rate is more competitive than other current, comparable term offers listed on Public Utilities Commission of Ohio comparison charts and will help residents control their natural gas costs.”

Those wishing to join the City’s program supplied by Constellation should expect to receive a notice in the mail from Constellation on or around August 26th. The notice will explain the rate, terms and conditions, and various methods of enrolling in the City’s natural gas program. Constellation recommends that residents look for this letter and follow its simple instructions to enroll by phone, mail, fax, or through the Internet at www.constellation.com/oh-cortland.

“Constellation is proud to offer residents and small businesses in the City of Cortland price certainty and the hassle-free low rates we offer all customers,” said Bruce Stewart, chief marketing officer for Constellation. “As a national energy leader with deep roots in serving Ohio’s residential, commercial/industrial and governmental customers, we look forward to providing natural gas supply and a range of competitive products to the City of Cortland’s residential and small business customers.”

The City is pleased to make this program possible but asks that residents not call the City offices, which are not equipped to handle a large volume of calls. Residents are asked to contact Constellation toll free at 1-877-225-9416 if they have questions.

This offer is sold by Constellation Energy Services, Inc., an independent natural gas supplier licensed by the Public Utilities Commission of Ohio, license No. 02-21G(6). Constellation’s price does not include any taxes, utility distribution charges or other utility fees, charges or credits.

About Constellation

The Constellation family of retail electricity and natural gas suppliers (www.constellation.com) are subsidiaries of Exelon Corp., and are leading competitive retail suppliers of power, natural gas and energy products and services for homes and businesses across the continental United States. Constellation’s retail businesses serve more than 100,000 business and public sector customers, including more than two-thirds of the Fortune 100, and nearly one million residential customers.

Exelon Corporation (NYSE: EXC) is the nation’s leading competitive energy provider, with 2013 revenues of approximately \$24.9 billion. Headquartered in Chicago, Exelon has operations and business activities in 47 states, the District of Columbia and Canada. Exelon is one of the largest competitive U.S. power generators, with approximately 35,000 megawatts of owned capacity comprising one of the nation’s cleanest and lowest-cost power generation fleets. The company’s Constellation business unit provides energy products and services to approximately 100,000

business and public sector customers and approximately 1 million residential customers. Exelon's utilities deliver electricity and natural gas to more than 6.6 million customers in central Maryland (BGE), northern Illinois (ComEd) and southeastern Pennsylvania (PECO).
